an industry first...

the pure manufacturing plant,
here in the UK, is the first
carbon zero manufacturing
facility in our industry.

revolutionary production

By investing in the most modern manufacturing machinery currently available in Europe, we can boast the most efficient steel locker manufacturing facilities in the UK. Our world class production facility utilises the latest in data driven technology placing Pure firmly in the Industry 4.0 age. Our attention to detail and the speed of production achieved by our new tooling allows us to deliver a service not yet experienced in our marketplace.

carbon zero

We take our social and environmental obligations very seriously. By sourcing raw materials and energy responsibly and investing heavily in the latest production techniques we can minimise our carbon footprint and are proud to offer, what we believe is, the first carbon neutral manufactured steel locker in the world.

our product

The Pure range is the result of many years of experience in the personal storage industry. We know everybody's requirements vary, so we have an unrivalled ability to adapt to most needs. Each product in our range has been reimagined and redesigned utilising our cutting-edge technology to ensure we offer a product to suit your requirements.

covid safe

At the heart of our own anti-bacterial coating, Bioshell, is Powdura® ECO powder coating from Sherwin-Williams. This COVID safe powder coating provides customers a more eco-conscious anti-bacterial solution to product protection, colour and performance.

Carbon zero manufacture
Carbon zero for scope 1 and 2 emissions 2022.

Zero to landfill
We reduce, reuse, re-purpose and recycle all waste generated by our operation.

No single use plastic
We have eliminated single use plastic from all of our packaging.

Carbon zero company
We will achieve net zero by 2025.

COVID safe coating
Our Bioshell powder coating incorporates an anti-bacterial ingredient.

(divine yellow sgl/designer white sgl)

pure design

Our innovative design provides a structurally strong locker which has been tested to comply with the locker testing standard BS4680:1990 yet has the aesthetics of an item of office furniture. Using the latest computer aided design facility directly linked to our production operation we can quickly adapt to changes in locker trends and any specific requirements.

pure benefits

Pure lockers can be positioned side by side, without the unsightly 'creep' gaps suffered by other brands. Our sidewalls have been developed to ensure creep is minimised, offering a far superior aesthetic.

A structural plinth between compartments for security, along with our unique shelf fixing mechanism provides an industry leading durable and robust locker.

Our locker frame and top cover are designed to be interlocked, reducing fixings and offering a significantly increased security threshold.

With through door locking, extra protection is provided at what would traditionally be the locker's weakest point, not any more.

Our in-door vents have been designed and developed to maximise airflow through an individual locker compartment while adding a stylish touch.

Our all-metric sizes offer an alignment with current ff&e design parameters.

Our lock offer will provide end-users with industry leading security options.

british made

Manufactured in our 64,000 square foot factory strategically located on Deeside in North Wales, we have easy access to the main arterial routes to all parts of the UK and Europe. We are proud to be part of the 'MADE IN BRITAIN' movement.

pure benefits & features

(magma/white)

- o carbon zero manufacture
- o doors vented aiding air flow
- o through frame locking
- o flamezero certificated
- o covid safe finish - bioshell
- o robust .9mm & .7mm thick steel
- o made in britain
- o high quality uk locks
- o fully recyclable
- o off set rivets on all products
- o anti-intruder frame
- o tested to bs standards

pure design

We've re examined every detail and made improvements at every turn. Here's an example of how the little things count. By simply creating an indent for the rivet of an adjoining locker to locate, we've removed the creep that so often catches planners out when specifying quantity for a given space.

The visible gap between adjoining traditional lockers can be up to 4mm wide.

the pure solution

Our innovative solution is a simple rivet pocket and an offset rivet allowing lockers to sit flush with zero gap.

(lime light/arctic white/pearl silver)

suitable environments

Pure Lockers come in many colours, finishes, textures and sizes options and have been designed to suit many environments, such as:

- pharmaceutical
- care
- educational
- commercial
- industrial
- sports and social
- retail
- civil service
- emergency services
- mod Facilities
- correctional Facilities

In fact, we cannot think of a setting that is not suitable for Pure Lockers!

pure prime

Our standard range of superior lockers are manufactured from robust 0.9mm and 0.7mm thick steel, Pure lockers incorporate a range of unique features that make it one of the most stylish and adaptable lockers available. State of the art production capabilities allow us to manufacture a wide range of sizes to suit most requirements and budgets.

pure individual

We know that not everybody's needs are the same and some customers need a more specialised locker, so we have developed a range of lockers specifically for the leisure, education, healthcare and food industries. The range includes the popular Clean & Dirty, Janitor's/Uniform, Twin, Two-Person lockers. We can also introduce our reimagined Z locker offering two separate compartments for each of two users, one hanging and one shelf compartment.

pure workwear

Our range of garment dispensing lockers and garment/bulk collector provides a smart, efficient solution for organisations managing uniform issue and laundering. They remove bottlenecks, reduce manual handling, and minimise administrative time. Employees benefit from faster, self-service access to uniforms, helping shifts start on time. For employers, this means improved accountability, smoother laundry cycles, better hygiene control, and a more efficient workforce all delivered through durable, thoughtfully designed storage solutions that work seamlessly behind the scenes.

pure mobile

power

pure phonesafe

Supporting new guidance from the DfE (Department for Education)

Our unique phone storage modules are designed with busy teachers in mind, at the start of each lesson, students can quickly deposit their phones in the open phonesafe. The secure 10mm thick shatter-proof acrylic door allows students to see their phone which can reduce anxiety. At the end of the lesson, the teacher can quickly and simply open the door allowing the students to retrieve their phones and move swiftly on to the next lesson.

“This is a fantastic move forward for ensuring that students are able to work, learn and grow in a place free from the distracting influence of mobile phones.”

Tom Bennett - School behaviour advisor. Source: www.gov.uk

Innovative phone slot for quick deposit

Take control of classroom focus with our multi-slot **phonesafe plus** locker; the ultimate solution for distraction-free learning! Designed for efficiency, this robust locker features individual slots where students can quickly deposit their phones at the start of a lesson. At the end of class, teachers can return all devices instantly using just one master key - no delays, no distress. Keep students engaged, minimize distractions, and ensure a smooth lesson flow with this hassle-free system. Safe, efficient, and teacher-friendly, our phone locker is the perfect tool to reclaim attention and maximize learning time.

pure seats & stands

In some situations it is a requirement that staff can clean under lockers to prevent a build up of dirt and debris. This can also ease access to the bottom locker compartment. We can supply stands to lift the locker body from floor level. Usually 150mm high and fitted with adjustable feet to counteract uneven floors, these stands can be supplied in multiple locker widths to save cost and make installation easier:

Not all changing rooms have the available space to accommodate separate changing benches. To contend with this, we can supply a combined bench seat and stand. Benches have solid wood slats, can be manufactured in multiple locker widths and have the added benefit of allowing cleaning under the lockers.

pure shield - sgl

Where appearance counts or locker doors need to withstand the rigours of heavy use, we have a range of solid grade laminate (SGL) door lockers. Our range of laminate surfaces and colours are made to match cubicle or furniture finishes. The sturdy composition of these doors allows the surface to withstand a great deal of punishment in demanding environments such as schools, universities, leisure facilities and many more.

pure benefits

The perfect combination of strength and aesthetics, these lockers have become widespread in educational and leisure applications where lockers are expected to both look good and withstand the rigours of severe use. Self closing hinges minimise damage to property and person, through door fixing provides a strong and secure door fastening. Multiple locking options from a simple padlock through to remote locker rental allocation and revenue. With a huge variety of colour finishes available through laminate manufacturers, the design possibilities are virtually limitless.

pure leisure - aluminium

(10yr)
guarantee*

This range of lockers has been designed to meet the specific needs of the leisure market. We understand the need to marry the two requirements of appearance and practicality in a challenging environment.

pure benefits

Robust self closing hinges, eliminate the danger of users colliding with open doors.

Aluminium bodies will not corrode in wet conditions, and solid grade laminate (SGL) doors and cover panels are not only highly water resistant, but also highly resistant to malicious damage.

Our extensive range of dry and wet area locks will protect users personal property. Whether it's key, padlock, coin operation or RFID swipe card we have a solution.

In conjunction with a wide range of accessories we can design, manufacture and install a full changing area scheme. We are not limited to a specific laminate manufacturer; we can provide doors that match cubicles or vanity fittings.

pure and secure wet area locks available

1

Standard cam lock

Our standard cam lock features 3000 serial combinations. Two keys supplied with this lock.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

2

Secure hasp lock

This hasp offers a higher level of security over the standard hasp and also adds a touch of style to your locker.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

3

Premium cam lock with plastic key fob

Our high security premium cam lock features double entry key access and offers a higher level of security.

Available for:

Steel door lockers
Steel body - SGL doors
Steel body - MFC doors

4

Diamond turn handle hasp lock

This stylish hasp allows the use of a padlock with a maximum shank diameter of 7mm, minimum 5mm. Padlock sold separately.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

5

4 digit re-programmable lock

Available set as **private mode**, this 4 wheel mechanical combination lock features up to 10,000 unique combinations. For additional security the combination lock is also available with an optional 'twist resist' feature.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

6

4 digit re-programmable lock

Available set as **public mode**, this 4 wheel mechanical combination lock features up to 10,000 unique combinations. For additional security the combination lock is also available with an optional 'twist resist' feature.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

7

Digital combination Lock

With a solid zinc alloy housing, 10-digit keypad, a secure key override as standard, the Zenith digital lock is the perfect choice for a wide variety of applications.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

8

RFID contactless digital lock

High strength Grivory makes this lock very robust, the lock can be used independently or paired with existing wireless systems. Steel override key available to bypass the contactless locking feature when immediate supervisory access is necessary.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

9

£1 coin/token return or retain

These self-service locks are simple and easy to use. This lock is available in two modes; **coin return** and **coin retain** (retain if used with the additional Coin box, opposite). In both modes the lock is controlled using a master key, available separately.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

9a

Optional coin retain box

The Coin Box P004 attaches to the rear of the coin operated lock and retains any coins that are used to operate the lock.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

10

£1 door front coin return lock

£1 coin return lock offers a cost effective solution for multiple occupancy locker/compartments. Ideal for changing rooms and public areas. Can be retro fitted to most Pure lockers. Supplied with two keys. Dry environments only. Master key available.

Available for:

Steel door lockers
Steel body - SGL doors

11

RFID contactless circular lock

This is an environmentally friendly, low energy system using just one standard, easy to change, 1.5V AA battery. The transponder is available in cards, tags or wristbands. All transponders are easy to programme to master or user. Suitable for dry environments only. Master key available.

Available for:

Steel door lockers
Steel body - SGL doors

12

NFC operated lock - batteryless!

BeCode Volt is a batteryless smart furniture lock with an integrated NFC tag. The energy for the locking process is obtained through the NFC interface. Through this interface, data exchange also occurs with an NFC-enabled Android or iOS smartphone.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors

13

Fingerprint operated lock

This iTan, fingerprint operated, flush mounted lock has a service code for easy management. Uses two AAA Alkaline batteries. Emergency power and updates possible via Micro-USB.

Available for:

Steel door lockers
Steel body - SGL doors
Aluminium body - SGL doors
